## EDUCATION

### **MSc Human-Computer Interaction, UCL**

*Starting Sep 2020*

- Expected end date: September 2021.

### **BSc Psychology, UCL**

*Sep 2017 - Jun 2020*

- *First Class Honours.*

- Awarded the *Faculty Undergraduate Scholarship for Excellence* for being the academically most outstanding first-year undergraduate in the faculty.

- Awarded the *Burt Prize* for achieving the highest overall grade (79%) in the cohort in first year.

## SKILLS

**Design / Prototype** Sketch, InVision, Figma, Adobe CC (XD, Photoshop, Illustrator, After Effects).

**Development** HTML, CSS, JavaScript.

**Data Analysis** Python, R, SPSS.

## EXPERIENCE

### **Research Intern, UCL**

*Aug 2019 - Sep 2019*

As part of the 2019 Institute of Cognitive Neuroscience Internship, I was involved in a project aimed at developing a psychometric procedure to assist in mental capacity assessments. Apart from conducting literature reviews, I designed a survey using the Jisc Online Surveys platform to gather information from clinical psychologists.

### **Summer Research Intern, Johns Hopkins University**

*Jun 2019 - Jul 2019*

As part of the 2019 Mind and Vision Summer Experience, I conducted a project that investigated the format of visual working memory representations. I was involved in designing experiments, recruiting and testing participants, analysing the data and creating data visualisations. I also delivered multiple presentations and a departmental poster presentation on my project.

### **Undergraduate Research Assistant, UCL**

*Oct 2018 - Mar 2019*

I assisted in research on perception, decision-making and memory at various research laboratories. I was responsible for participant recruitment, participant testing and data analysis.
